

This map illustrates the distribution of water quality impairments across the 11 counties of the Chesapeake Bay watershed. The counties are color-coded based on the number of impairments: 1 (lightest yellow), 2 (light yellow), 3 (yellow), 4 (orange), 5 (dark orange), 6 (red-orange), 7 (red), 8 (dark red), 9 (brown), 10 (dark brown), and 11 (black). The map shows a high concentration of impairments in the central and eastern parts of the watershed, particularly in the counties of Stafford, Stafford County, and Stafford County. The map also includes labels for major water bodies such as the Potomac River, Rappahannock River, and James River, as well as a grid for reference.
